Dear David,

I confirm my telegram~~pe~~which is clear enough.

I hope you will arrange the photographic safari comfortably for Jacqueline and I.

Do not forget that I am 91 years old although in a very good health shooting partridges every day.

I do not want to be in too hot places as when we were in Kenya with my brother Nicolás and we shot the elephant.

I would like very much to see many animals and if possible not many tourists!

Jacqueline does not like the camps but I like ~~them~~ if they are comfortable.

Yours sincerely,
