Dear Fabrizio,

Thank you for your letter from Lishonne.

End of March, I did not phone you because I was not in Minorca and I forget to take your telephon number with me.

Now, I see with pleasure that you are navigating again. "NAVEGARE NECESE EST" that used to be said by the Baltic Navigators.

Inmunoferon : my office in Madrid sent you beginning of April a pack with the medicine and it was sent back because custom troubles.

We repeat tomorrow the sending you of Inmunoferon.

The sick man has to take at least 3 envelops per day anytime and he can take them the 3 together.

I wish you have a very good journey. Myself am taking off on your yacht Addaya to cruize around the islands of Greece.

Hope to be back in Minorca in September.
