Your Christmas card with your picture on the Addaya was a great joy for me, remembering how nice you both are and how much we like to have you on board.

On my last visit, you said that because you build a new house somewhere in the States, you are not going to come to embark on the Addaya.

I always hope that you change your mind and you join me in the island of Rhodes, at the beginning of july. If this was not possible, I hope you will be able to come to Montefiore for a couple of weeks in September or October.

Thank you again for the Christmas Card!
