Christmas is passed and I hope that is very good
for you after the stay in the hospital.

They said no news good news and that is why I
suppose that your medical intervention was succes-
ful.

I intend to be in Florida twice in the month of
February and I hope to see you around of the 20th
of said month.

I wish you both a very Happy 1986 and I should be
very greatful to you if you take me fishing.
