Dear Judith:

Thank you very much for the travail you took arranging our wonderful trip around the world. The part of the ship was beautiful and interesting and I have no words to praise the good service, the good friendship of all personal on board. Please let them know.

CHINA: I repeat the same words as for the boat, with the remarkable efficiency of the guys and the kindness of Mrs. Lindblad.

The only problem is the helicopter, because there was not helicopter. I am joining you the vouchers and the note from the Director of the Tour and I hope you will get the money back. Please keep the money in a file until I see you in November.

Thank you again, hope you are as beautiful as ever, and best regards,
