Mr. Guy Angers  
President  
ROUGIER, Inc.  
8480 Boulevard Saint Laurent  
MONTREAL (Canada)

Dear Guy Angers,

Recently I heard His Holiness the Pope, imploring humanity to love each other and that leads me to write you again, because I am very old man (85) and although I am in good health could not last much longer.

Once again I have to remind you that your Company owe me many years of monthly payments. I am sure you remember to have told me that that money that your Company owe me, will be very good and very sure for my old age. I have counted on your word constantly.

Someday your Company will have to pay because I have in my possession the necessary documents and in my opinion it should be a lose of time, energy and money to give the case of lawyers.

As a matter of fact, your lawyers wrote me few years ago telling me that they were studying the case, but the results of said study never came to me. Most certainly they know that the right is in my side.

I am sure that if someday you were able to talk with me directly we will find a solution to my problem without putting the things in a way that it becomes your problem.

Consult your conscience and being a catholic conscience it will work.

My suggestion is that you come to see me in Menorca in april and I will be delighted to have you in our house because I may not forget that we are very, very old friends.

Happy New Year, regards to your wife and family
