

8 April 1994

Dear Senora Rubio,

On behalf of the members of the group from Florida recently spending time in Mexico to research eighteenth century documents, I want to thank you for your gracious hospitality in having us for tea. We all agree that it was an important marker in our trip.

We appreciated the brief moments that we were able to spend with Dr. Rubio and do thank him for the gift of books. He has always been a friend of St. Augustine, and the people of this community appreciate his interest.

Your home is located in such a splendid and beautiful

FUNDACIÓ
RUBIO

place that I am certain it must
be a delight and comfort to you.
The views are indeed magnificent.

Having personally experienced
the serious illness of a husband
I especially understand the
sadness of a loved one's decline.
I wish you fortitude in the
days ahead.

Thank you for providing
us with a very pleasant memory.

Sincerely,

Patricia C. Griffin
