Dr. Kit Colfach
Grantorpet
VASTERVIK (Sweden)

Just back from Japan and Korea for scientific business.

I received your letter of September 10th, and I am very happy knowing that you are still alive and travelling around the world as usual.

I miss very much the Explorer and I miss very much too Antarctica where I would like very much to go again.

Fly to Japan and back, I went across the Arctic circle looking for Anchorage. Gran Espectaculo!

Now, I intend to stay in Mongolia until the end of the month of October. Then I will stay 2 days in Madrid for a Congress about Immunity. Then, I will fly to Mexico for 10 days and intend to be back in Menorca at the beginning of December. Then, I will stay in Mongolia until the end of January, God permitting.

Dear Kit, why don't you come to Mongolia during December or January?. The winter in Sweden is not good.

Part of February and part of March 1988, we will be on a ship, South of Singapore visiting all the islands. The ship is British and I don't remember the name.

Jacqueline is in Paris with her beautiful daughter and sure she joins me to wish you happiness and good health.
