Dear David,

Thank you for your letter of November 1989.

It was impossible for me to contact you while you were in England but, it does not matter, because I am interested in a safari for January 1991.

Is it still possible to shoot a big elephant with big tusks? if this is impossible, as I am afraid it is, we will try to arrange a photographic safari with a group of minorcan friends,

I was very happy to hear from you, remembering our unforgettable safari.

Please arrange with the publishers that I can receive your book "A cry from the Wild".
